

Writing Prompt #2

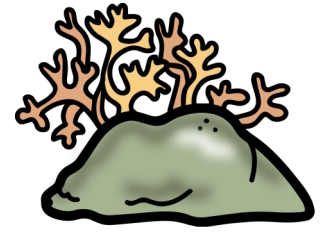

You are a Sami reindeer herder moving with the herd as it migrates. One day, you notice something very strange about one of your reindeer. What is it? What do you do about it? What happens next?

Writing Prompt #3

You are a lichen at the end of a dry winter. Everything is frozen, and you haven't been able to grow. But this morning, you woke up to a soft snowfall, and the sun is finally coming up. You can feel the algae part of you

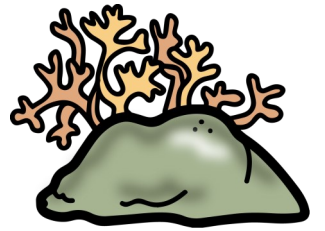

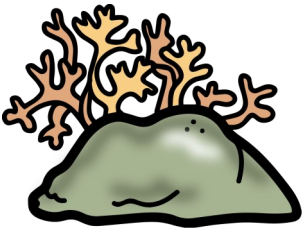

start to make sugar. You'll have enough energy to grow soon. What do you think about while you are waiting? What does waiting to grow feel like?
